

Color Theory Guide

Red, blue, and yellow are PRIMARY colors.

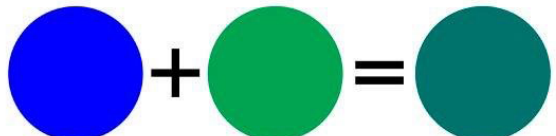

Primary + Primary = SECONDARY

Purple, green, and orange are secondary colors.

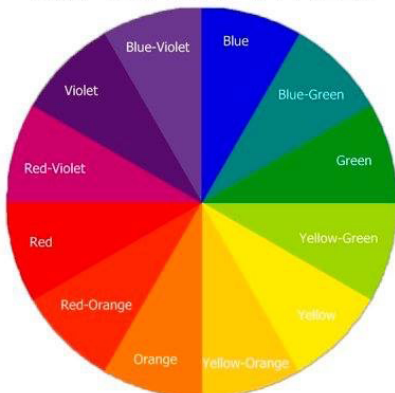

Primary + Secondary = TERTIARY

Red-orange, red-violet, blue-green, blue-violet, yellow-green, and yellow-orange are tertiary colors.

The COLOR WHEEL

OPPOSITE colors are colors that are opposite, or across from, each other on the color wheel. They combine to make brownish colors. Red/Green, Blue/Orange, and Yellow/Purple are pairs of colors that are opposites.
